

BETTER SOUND COMES ALIVE

GREAT NEW PRODUCTS AND OFFERS FROM BOSE®

Wave® music system III - digital

An all-in-one music system with built-in CD player, DAB+/FM/AM tuner, clock and alarm.

With a choice of free accessory worth \$139.

Building on over 30 years of innovation and research, the Bose® Wave® music system III - digital delivers award-winning, room-filling quality sound, yet the entire one-piece system takes up less space than a single conventional speaker.

Music. As it was meant to be heard. The Wave® music system III - digital reproduces music with the most accuracy we've ever produced in a system this small, allowing you to hear details you may never have noticed before in songs you know by heart. Exclusive Bose waveguide technology allows this compact system to outperform larger, more elaborate systems – at a fraction of their price.

A digital FM/AM/DAB+ tuner delivers our best-ever radio reception, while a digital display shows artist and station information. Touch-top controls turn the system on, off and snooze the alarm and a slim, credit-card size remote offers one touch control of the system's full functionality.

THE BOSE EXCITEMENT GUARANTEE

We believe the best way for you to appreciate the Wave® music system III - digital is to experience it in your own home. So call now and try it for 21 days without risk or obligation. If not completely satisfied we offer a full refund including shipping costs both ways.

AVAILABLE ONLY DIRECTLY FROM BOSE

Bose® Solo TV sound system

Every TV show you watch has a world of sound within, but you may not be hearing it. That's because most flat-panel TVs have speakers that simply cannot reproduce the depth and detail of all that sound, so it remains trapped inside.

To solve that problem, we developed the Bose Solo TV sound system. It reveals so much more of the sound you're meant to hear that watching TV can feel like an entirely different experience.

No matter how many times you've watched your favourite shows, you can hear details you never noticed before. Subtle sound effects. The crisp, clear vocal that steals the spotlight in your favourite talent show.

Our first one-piece solution for your TV.

Proprietary digital signal processing allows this speaker to deliver more of the dialogue, music and sound effects you've been missing – clearly and naturally. So you won't have to turn up the volume to hear it all. And Bose speaker array technology reproduces sound that's wider than the screen, all from a speaker that fits neatly under your TV.

New QuietComfort® 20i

Acoustic Noise Cancelling®
headphones

"...an excellent investment for anyone who wants amazing audio quality and incredible noise cancellation."

Stephen Fenech, Tech Guide, 30 August 2013

Shut out the world and lose yourself in your music – or let the world in. It's your choice with the first in-ear noise cancelling headphones from Bose®.

The QuietComfort 20i Acoustic Noise Cancelling headphones are engineered to let you enjoy better sound every day, everywhere you go. Turn on noise cancelling to reduce surrounding distractions and focus on your music. Or choose Aware mode to continue enjoying your music while also hearing what's going on around you.

Inside these advanced headphones, exclusive TriPort® technology brings your music to life. Additional exclusive technologies provide dramatic noise cancellation rivaling any full-sized headphone on the market today. The proprietary StayHear®+ tips create a soft, secure fit – with no need to force them into your ears. The inline mic/remote lets you easily control your iPhone® or iPod®. The rechargeable lithium-ion battery provides up to 16 hours of use, and a USB charging cable is included. And even when the power is off or the battery runs out, you can still use these headphones to enjoy Bose quality sound.

BOSE EXCITEMENT GUARANTEE

We believe the best way to experience these great products is to experience them in your own home with a 21 day risk-free home trial. If at the end of the 21 days you feel the product is not right for you then simply call us and we'll arrange to collect it and refund all monies paid, including return shipping.

Most products (excluding the Wave® music system) are also available from authorised Bose resellers. Please visit reseller.bose.com.au for your nearest stockist and to check product availability before you travel. Products purchased from an authorised reseller do not include the 21 day Excitement Guarantee.

© Bose Corporation 2013. All rights reserved. Risk-free trial refers to home trial only and is available for purchases made directly from Bose or a Bose store. Free Wave® Bluetooth music adaptor or Wave® Connect Kit, free shipping and 10% discount bundle offer valid for orders received between 26th October 2013 and 25th January 2014 and cannot be applied to previous purchases. 10% discount only applies when the Wave® music system III and Solo TV sound system are purchased directly from Bose in a single transaction. In the event that product is returned, the free Wave® Bluetooth music adaptor or Wave® Connect Kit must also be returned to qualify for full refund. Wave® music system is a registered trademark of Bose Corporation in the US and other countries. Wi-Fi is a registered mark of the Wi-Fi Alliance. The wireless note design is a trademark of Bose Corporation.
